LET'S GO SHOPPING SPREADSHEET

Estimate the cost of each piece of mandatory gear on the spreadsheet by rounding. Write the gear name, estimate or round the price, multiply that by the number of items required, and then find the total estimated cost.

You will start the race with 16 dogs – the maximum allowed

Gear Name:	Rounded Price:	X How Many?	Total Cost:
Snowshoes	$150	1	$150

Total estimated cost for sled gear for an Iditarod musher:	**$**
